

Bespoke table tops in stone, glass and zinc

Introducing bespoke table tops in stone, glass and zinc

HND manufactures table tops in a wide variety of stones with a choice of size and edge profile.

We have a standard stock range of materials and these are shown opposite. However, we increasingly supply a wide variety of marbles, granites, quartz, and manufactured quartz (to customer specification) and can source materials to requirement.

As well as table tops, we make tops for serving counters, waiter stations, vanity units etc. All table tops are packed and there is no minimum order.
